

A Year's Abuse In 7 Days

All Light Car Road
Records Smashed

At Indianapolis recently an Overland 4 stock car was driven 5,452 miles continuously in seven days and nights, over frozen country roads.

This is an average of 778 miles per day—more than the distance between Toledo and New York City. This is another tribute to the cushioning effect of Triplex Springs and the quality of material in Overland 4.

The greater the extent of the railroad strikes the more it inconveniences the public and the more sentiment it creates against the strikers.

The special road district organization vote in the election Saturday was 102 to 42 in favor of the proposition. The very decisive vote of more than two to one shows that our people are becoming enthused over the matter of better roads.
